

INDENTITY

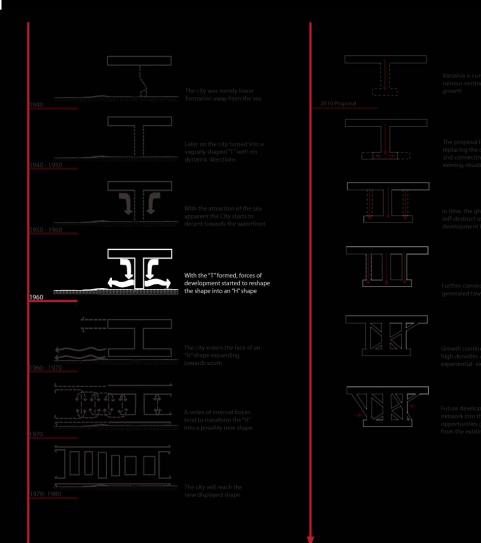

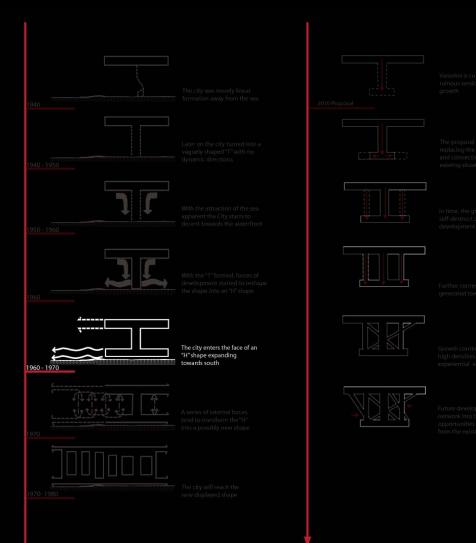

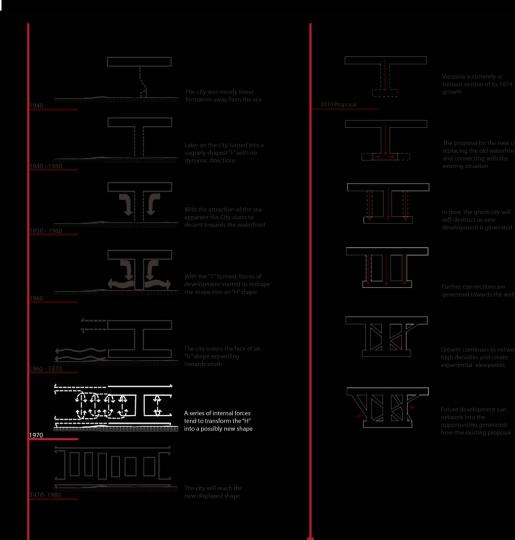

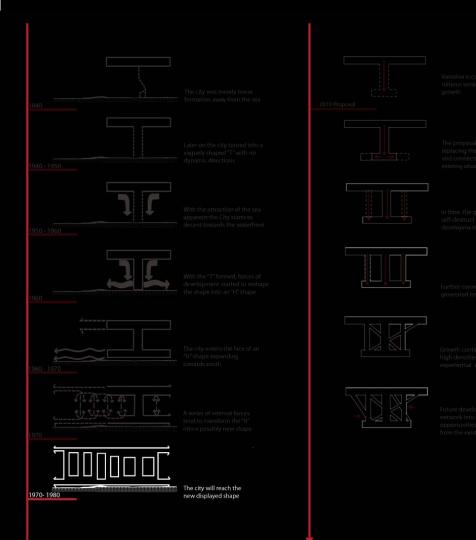

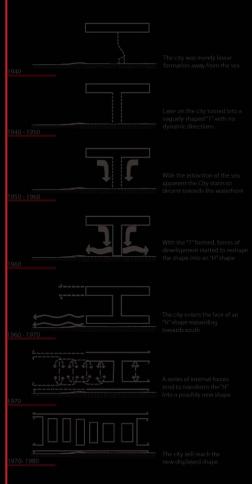

Varoshia is currently at ruinous version of its 1974

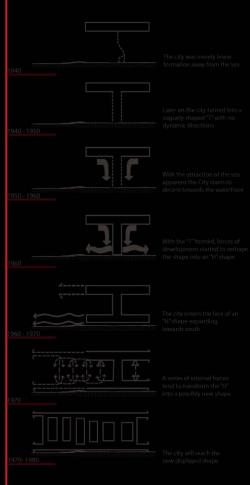

The proposal for the new city replacing the old waterfront and connecting with the existing situation

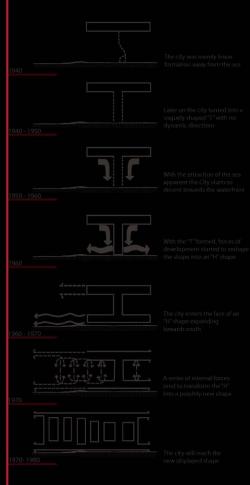

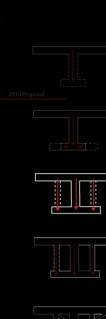

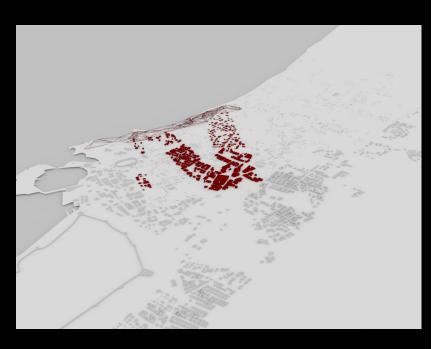

In time, the ghost city will self-destruct as new development is generated

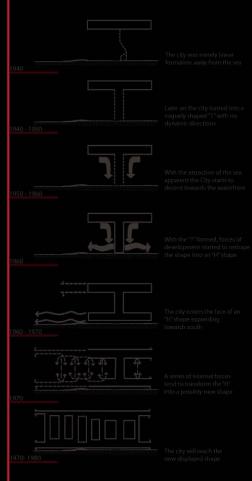

GROWTH

Varoshia is currently at ruinous version of its 1974 growth

The proposal for the new city replacing the old waterfront and connecting with the existing situation

in time, the ghost city will self-destruct as new development is generated

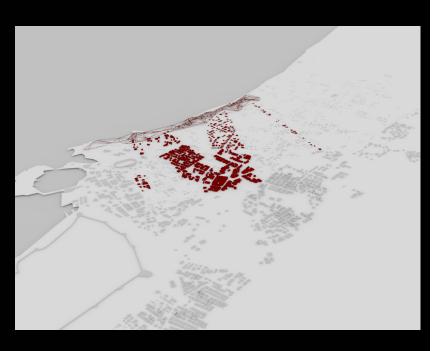

Further connections are generated towards the wall

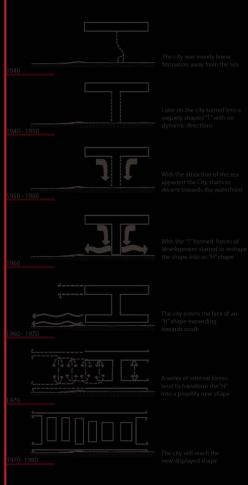

Growth continues to network high densities and create experiential viewpoints

Future development can network into the opportunities generated from the existing proposa
